

A group of five students, three young men and two young women, are gathered outdoors under a large tree. They are all wearing lanyards with Notre Dame logos. One student is wearing a green t-shirt with 'NOTRE DAME' printed on it and a camouflage baseball cap. They appear to be working on a project involving small objects, possibly seeds or beads, laid out on a surface. The background is filled with green foliage.

DO SOMETHING EXTRAORDINARY

Notre Dame Pre-College Programs provide exceptional high school students with a rigorous preview of higher education through immersive academic and social experiences. Taught by University of Notre Dame faculty, these programs offer college-level coursework, opportunities to earn transferable college credit, and a taste of campus life, global studies, or virtual learning.

Summer Scholars

A two-week residential program for rising juniors and seniors where students take intensive, credit-bearing courses across fields like philosophy, engineering, accounting, and neuroscience, while living in University residence halls.

Summer Scholars Session I
June 19 - July 3, 2027

Summer Scholars Session II
July 10 - July 24, 2027

Leadership Seminars

A highly competitive, fully-funded residential program for rising seniors focused on global issues, ethics, and leadership through collaborative research and community engagement.

Leadership Seminars Session I
June 19 - June 30, 2027

Leadership Seminars Session II
July 10 - July 21, 2027

Study Abroad

Embark on a life-changing adventure with Notre Dame's study abroad programs for rising seniors, offering immersive cultural and academic experiences in Rome, Ireland, or London led by University faculty. Discover historic architecture, dramatic landscapes, and vibrant cities while creating unforgettable lifelong memories.

Check the website for dates.

APPLICATION OPENS OCTOBER 19, 2026

It was an incredible lens into what college is like, but even more so the heart and soul of what makes ND and this community so special.

2026 Summer Scholars alumnus, Ryan Fish
